Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

In view of the applicants' remarks and terminal disclaimer filed November 07, 2005 and the interview summary record filed November 2, 2005 in which it was established that the present invention a method of preparing a copolymer containing succinimide moieties, by polymerizing aspartic acid in the presence of an end-capping initiator and further comprising a catalytic amount of ***phosphoric acid, polyphosphoric acid or a mixture thereof not to exceed 10% by weight of the aspartic acid and the endcapping initiator***, differed from the Kroner reference in that, it does ***not teach phosphoric acid, polyphosphoric acid or a mixture thereof in a catalytic amount not to exceed 10% by weight based on saturated or unsaturated acid*** and Schubart does not teach the use of phosphoric acid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Swift is cited to show the state of the art of preparing polysuccinimides.
